

# gPanel® Standard

Harness the robust capabilities of your Google Workspace.

## Do any of these statements resonate with you?

- You often find yourself manually updating important data in your Google Workspace environment, such as adding new user profiles, updating Gmail signatures, and performing onboarding/ decommissioning actions.
- You perform a lot of repetitive tasks that could potentially be automated to save time.
- You can't seem to make your Google Workspace reports as granular as you'd like.
- You find yourself getting frustrated with one-size-fits-all approaches to Workspace management.

If you said yes, then it's time to unlock the true potential of your Google environment with gPanel® Standard, Promevo's affordable, comprehensive Workspace management and security solution.

## What Is gPanel® Standard?

gPanel® provides administrators with all the tools they need to manage users effectively in their domain while safeguarding sensitive data. The platform goes above and beyond what is accessible in the Google Admin Console to enhance efficiency, security, and control over your data.

## With gPanel® Standard, you receive the following features:

- Centralized User Management
- Granular Visibility & Control
- Delegation
- Document Administration
- Bulk Operations
- Group Administration
- Permission Management
- Automation & Decommissioning
  - Admin Policy Generator
  - Decommissioning
  - Automated Decommissioning Process
  - Customized Policies
  - Custom Signature Template
- Compliance
- Secure Collaboration
- Reporting
- Billing
- Drive Management
- Risk Management
