Google for Education Domain Audit Service

Clean up and strengthen your school's domain health with a **Google for Education Domain Audit** by our strategic partner **RGT Consultants**.

When you purchase this service through Promevo, your educational organization will receive a comprehensive audit across five key areas to ensure your domain follows best practices in terms of structure, security, and performance.

Google for Education Domain Audit

RGT Consultants' Google for Education Domain Audit services cover five key areas of domain health:

- **Technical Architecture Design**

- Domain architecture
- Organizational unit (OU) structure

- **Google Services Review**

- Google Workspace core services
- Add-on services such as Google Classroom
- Non-core services such as YouTube, Blogger, and Google AI Studio

- **Third-Party & Mobile Apps Services Review**

- Marketplace apps
- Mobile and SAML enabled apps

- **ChromeOS Console Settings Review**

- User and device settings

- **Security & Compliance Review**

- Security settings
- Admin access
- Domain policies
- User security

Once the domain audit is complete, you'll have a **90-minute meeting** with one of RGT Consultants' **certified Google Workspace admins** to review your **comprehensive audit report** documenting your current settings and recommendations for optimizations.
